

# Cherry Parfait™ Rose Topiary

**Gorgeous repeat blooming Rose.**

## *Rosa 'Meisponge'*

- **Use:** This rose has truly outstanding color and a nice rounded habit that grows well in all climates. The bloom color holds nicely in the heat and will last all season long. She almost looks unreal! Cherry Parfait™ is extremely hardy and performs in all climates and stays compact at 3' x 3' so she can be added to every garden - large or small. We love her in beds, borders, or pots! The dark foliage makes a striking contrast to the bicolor flowers.
- **Exposure/Soil:** Full to part sun. They must have well-drained soils, so if you have red clay you must amend it. Water regularly, when top 3 in. of soil is dry. Keep water off the leaves (no sprinklers/ don't water leaves.)
- **Growth:** Grows to about 3' high by 3' wide. Keep trained as a topiary or you can grow as a bush.
- **Hardiness:** Zone 5-10; Shrub
- **Foliage:** Deciduous. Disease resistant foliage.
- **Flower:** A delicious rose with creamy petals dripping in cherry red. Her 4.5" cupped blooms with 30+ petals pop against her intense, dark foliage.

**Did you know that we recycle empty pots and trays? Please bring them back! Save the Earth!**
