

Apricot Drift Groundcover Rose

Finally a low growing rose with strength and disease-resistance! Brought to you by the same company that invented the Knockout Rose.

Rosa "Meimirrote" (Apricot Drift)

- **Use:** Apricot Drift® exhibits a true groundcover habit and offers a fresh look to the series. It is just as tough and disease resistant as others in the Drift® series. Best suited for small gardens or along paths and walkways. The low, spreading habit of Drift® Roses makes them perfect for small gardens, hillsides, perennial beds and even awkward areas. They brighten up borders, fill in empty spaces, and spread delicately around your favorite established plants.
- **Exposure/Soil:** Full to part sun. They must have well-drained soils, so if you have red clay you must amend it. Water regularly, when top 3 in. of soil is dry.
- **Growth:** Grows 18" tall and 3' wide.
- **Hardiness:** 5-10 Shrub
- **Foliage:** Deciduous. Small, semi glossy, dark green leaves. Should be pruned back to 4" in late winter for best repeat performance year after year.
- **Flower:** Double apricot colored flowers begin flowering in spring and display a season-long show of color until early winter.
