

Coral Drift Groundcover Rose

Finally a low growing rose with strength and disease-resistance!

Rosa 'Meidrifora' (Coral Drift)

- **Use:** Ideal ground cover; It's pretty, tough, and disease-resistant! This compact, spreading groundcover is floriferous with clusters of large blooms on every branch. Will spread swiftly over slopes, banks and other hard to cover areas. Also looks great in containers on the patio with a little pruning.
- **Exposure/Soil:** Full to part sun. They must have well-drained soils, so if you have red clay you must amend it. Water regularly, when top 3 in. of soil is dry.
- **Growth:** Grows 18-24" tall and 2' wide.
- **Hardiness:** 5-10 Shrub
- **Foliage:** Deciduous. Resistance to black spot leaf disease and powdery mildew as long as they are not overhead watered. Drifts should be pruned back to 4 inches in late winter for the best repeat performance.
- **Flower:** Bright coral-orange flowers cover this small, mounding shrub from spring to early winter. Petal count of 20-25 and 5-8 blossoms a stem.
