

Gold Medal Rose

Expect Gold Medal® to be at her deepest, pure gold color in cooler temperatures, but she is quite hardy and can handle the heat of warmer climates too! This gorgeous Grandiflora takes first place with her golden-yellow blossoms with copper shading that gently age to cream.

Rosa 'Aroyqueli'

- **Use:** May be the best yellow Grandiflora of all time. It performs like a winner in all kinds of conditions with great vigor, fragrance, strength, color and disease resistance. It has everything to be a true champion in the garden.
- **Exposure/Soil:** Full to part sun. Roses do not like water on foliage from sprinklers or garden hoses. They prefer well-drained soils so be sure to amend red clay and mound the flower beds if possible. Water regularly, when top 3 in. of soil is dry.
- **Growth:** Grows 3-6' tall and 3-4' wide.
- **Hardiness:** Zone 4a-8b; Shrub
- **Foliage:** Deciduous. Dark green foliage has unsurpassed resistance to black spot leaf disease.
- **Flower:** Medium sized flowers have about 30-45 petals and a strong fragrance. Golden-yellow, copper shading, ages to cream. Fruity, spice, tea fragrance.
