

Coral Knockout Rose

**We have these
6 months before anyone.
Not due in
stores until
2018!**

Rosa x 'Radral'

- **Use:** A new color addition to The Knock Out® Family of roses. The unique coral color is even stronger in hot humid climates. It blooms from spring through fall and maintains an upright to rounded habit. Young leaves are bronze red.
- **Exposure/Soil:** Full to part sun. During the winter they prefer well-drained soils. Water regularly, when top 3 in. of soil is dry.
- **Growth:** Rounded, bushy and well-behaved shrub, fast growing 4.5 ft. high and wide.
- **Hardiness:** Zone 5-10 Shrub
- **Foliage:** Deciduous. Young foliage is bronze red, which accentuates the bold flower color.
- **Flower:** A maintenance-free rose that continually produces self-cleaning coral flowers. 5-6 months of flowers.
