

Double Pink Knockout Rose

Rosa x 'Radtkopink'

- **Use:** A great deal of Double Knock Out's value as a landscape Rose comes from its four-season appeal and its resistance to blackspot, that scourge of other Roses! Not only is the bloom season exceptionally long, but the foliage takes on rich burgundy hues when it emerges in spring, adding another season of color to this shrub's merits! With superior drought tolerance once established, it has the toughness and resistance for which the family is known. A vibrant color that perks up any landscape.
- **Exposure/Soil:** Full to part sun. During the winter they prefer well-drained soils. Water regularly, when top 3 in. of soil is dry. More tolerant of shade than 'Radrazz'
- **Growth:** Rounded, bushy and well-behaved shrub, fast growing 3 to 4 ft. high and wide. Smaller than 'Radrazz' (red single)
- **Hardiness:** 5-10 Shrub
- **Foliage:** Deciduous. Unsurpassed resistance to black spot leaf disease.
- **Flower:** A bright bubble gum pink version of The Double Knock Out® Rose that is very stable and also unfazed by the heat. Classic shaped flowers from early Spring to the first frost.
