

Passionate Kisses® Rose Topiary

The fresh salmon colored blooms blend well in any landscape – a perfect companion plant in mixed perennial beds. This Floribunda is always in bloom! The non-stop blooms, along with the attractive shape of this rose, make it perfect for cutting to enjoy indoors.

Rosa 'Meizebul'

- **Use:** This beauty draws attention with her head-to-toe blooms and uniquely colored flowers. Medium 3 ½" blooms are salmon-pink with a pure pink reverse and have a very soft fragrance. Plant them among perennials or stand alone since the attractive shape of each bloom helps them to stand out in the crowd.
- **Exposure/Soil:** Full to part sun (at least 6 hours). During the winter they prefer well-drained soils. Water regularly, when top 3 in. of soil is dry.
- **Growth:** Grows 3 to 4 feet tall and wide with vigorous growth. Can be trained into a topiary.
- **Hardiness:** Zone 5-10 Shrub
- **Foliage:** Deciduous. Glossy green foliage is disease resistant.
- **Flower:** Clusters of small light pink flowers that bloom continuously throughout the summer, just like the summer kisses of first love. They have a light fragrance and 30-35 petals.
