

Rise Up Amberness Climbing Rose

PW
PROVEN
WINNERS®

Rosa x 'Rise Up Amberness' (Rosa x 'ChewAmberness')

- **Amber flowers boast an exceptional fragrance!**
- **Long blooming, continuously flowering all summer long.**
- **The first series of climbing roses from Proven Winners.**
- **Disease resistant and easy to grow.**
- **Use:** The Rise Up™ series of roses are the first-ever climbing roses from Proven Winners ColorChoice Shrubs. We call them "mini climbers," as they keep a neat, dense habit and can be grown as a climber or a shrub rose, depending on how the gardener prunes or trains them. Coming to us from the rose breeding genius of Chris Warner in the UK, these vigorous, healthy, reblooming roses create a range of new applications for Proven Winners roses.
- **Exposure/Soil:** Full to part sun. During the winter they prefer well-drained soils. Water regularly, when top 3 in. of soil is dry.
- **Growth:** Grows 3-5' tall and 2-3' wide.
- **Hardiness:** Zone 4a-9b; Shrub
- **Foliage:** Deciduous. Dark, glossy green foliage. Exceptionally disease resistant, it has been a real standout in breeder no-spray rose trials, both in a production setting and the landscape.
- **Flower:** The flowers of Rise Up Amberness™ rose look exquisitely sculpted, with wavy amber-colored petals surrounding a classic orange rose bud shape. They open to a full bloom with appealing golden stamens in the center. The exceptionally fragrant flowers appear all summer without dead-heading.
