

# Rise Up Emberrays® Rose

**PW**  
PROVEN  
WINNERS®

## *Rosa x 'Bozfra321' USPPAF*

- **Use:** *Warm up your view with Rise Up Emberrays® rose.* Its glowing orange and yellow blooms arrive continuously throughout the summertime. As they mature they soften to a pale pink and fold up like a traditional garden rose, giving them more range than your favorite actor! Makes a lovely low hedge, addition to your cut flower garden, or as a feature against your porch, climbing up a trellis. It can fill so many roles thanks to a versatile habit, it grows nicely on its own, but looks lovely trained upward with support as well. Excellent garden performance and good disease resistance allows you sit down, relax, and enjoy the view.
  - **Exposure/Soil:** Full to part sun. During the winter they prefer well-drained soils. Water regularly, when top 3 in. of soil is dry.
  - **Growth:** Grows 3-5' tall and 2-3' wide.
  - **Hardiness:** Zone 5a-8b; Shrub/Vine
  - **Foliage:** Deciduous. Dark, glossy green foliage. Exceptionally disease resistant, it has been a real standout in breeder no-spray rose trials, both in a production setting and the landscape.
  - **Flower:** Long and continuously blooming, this rose sets big, luscious orange blooms accentuated with a bright yellow eye. Borne in clusters, the fragrant flowers repeat rapidly, attract bees and butterflies to the garden, and make lovely bouquets or additions to floral arrangements.
- Why grow Rise Up Emberrays® rose?
  - Stunning flower color
  - Lovely fragrance
  - Long bloom period
  - Continuous Bloom or Rebloomer
  - Disease resistant
