

Rise Up Lilac Days Climbing Rose

PW
PROVEN
WINNERS®

Rosa x 'Rise Up Lilac Days' R ('ChewLilacdays')

- Its unique lilac-blue color, powerful, heady fragrance, and versatile habit make it the ideal addition to landscapes and gardens.
- **Use:** The Rise Up™ series of roses are the first-ever climbing roses from Proven Winners ColorChoice Shrubs. We call them "mini climbers," as they keep a neat, dense habit and can be grown as a climber or a shrub rose, depending on how the gardener prunes or trains them. Coming to us from the rose breeding genius of Chris Warner in the UK, these vigorous, healthy, reblooming roses create a range of new applications for Proven Winners roses.
- **Exposure/Soil:** Full to part sun. During the winter they prefer well-drained soils. Water regularly, when top 3 in. of soil is dry.
- **Growth:** Grows 5-8' tall and 2-4' wide.
- **Hardiness:** Zone 4a-9b; Shrub
- **Foliage:** Deciduous. Dark, glossy green foliage. Exceptionally disease resistant, it has been a real standout in breeder no-spray rose trials, both in a production setting and the landscape.
- **Flower:** one of the most unique roses to hit the North American market in years. Between its unique lilac-blue color and powerful, heady fragrance it will wow everyone that passes by!
