

Strawberry Hill® Climbing Rose

DAVID AUSTIN®

David Austin roses are prized for their unique combination of old rose charm (fragrance and flower shape) with the health and repeat-blooming qualities of modern roses, making them a gardener's favorite for their beauty, fragrance, and reliability.

Rosa 'Ausrimini' PP18716

- **Use:** If you are looking for a very fragrant climber that does well in a pot, say hello to Strawberry Hill®! She is a tall, vigorous, healthy, repeat-blooming climber with large, glossy leaves that thrives in beds, borders, or pots. Beautiful at all stages, bearing small clusters of large, mid pink, cupped rosettes. They have a strong, delicious myrrh and heather honey fragrance. The arching branches are clothed in glossy, dark foliage. Named after the gothic revival house in Twickenham, London, built by Horace Walpole.
- **Exposure/Soil:** Full preferred. Be sure she faces east, west, or south for full sunlight and to be at her peak performance. They must have well-drained soils, so if you have red clay you must amend it. Water regularly, when top 3 in. of soil is dry. Keep water off the leaves (no sprinklers/ don't water leaves.)
- **Growth:** Grows to 10' tall and 4-5' wide.
- **Hardiness:** Zone 4-11, Shrub/Vine
- **Foliage:** Deciduous. Foliage is dark green and disease resistant.
- **Flower:** An excellent, pink rose that combines extremely strong and healthy growth with 4.5" blooms of 120+ delicate petals. The blossoms are quite large and evenly shaped, with many small petals opening to form a flat flower with a soft textured appearance. It makes an excellent cut flower for arrangements and his strong fragrance of myrrh with a touch of lemon is a delight for the kitchen table. Excellent repeat flowering.
