

# True Bloom™ True Passion Rose

## *Rosa 'True Passion' PP28928*

- **Use:** Finally, a rose as lush and beautiful as it is easy to grow. With True Bloom Roses®, you will find revolutionary rose breeding process to combine the best features of hybrid tea flowering roses with disease-resistant shrub roses. Once plants are trialed at the breeding station for performance, they undergo years of trialing all over the United States to ensure they live up to our expectation of superior quality. This cultivar has been to be very heat tolerant in the South.
- **Exposure/Soil:** Full to part sun (best in full sun though). During the winter they prefer well-drained soils. Water regularly, when top 3 in. of soil is dry. Good air circulation is important for all roses.
- **Growth:** Grows to 5' tall and 3' wide.
- **Hardiness:** Zone 5-10 Shrub
- **Foliage:** Deciduous. Unsurpassed resistance to black spot leaf disease.
- **Flower:** Award winning, bright orange-red rose is a garden stand-out. A medium, peppery fragrance with 20-25 petals.
