

Cherry on Top™ Sorbaria

Sorbaria sorbifolia 'Bococot' USPP33639

- **Use:** With the improved Cherry On Top™ Sorbaria, experience this plant's classic foliage beauty, with the added benefit of the perfect topping to complete your enjoyment. After the white plume flowers finish, savor clusters of bright, fresh-looking red seed pods instead of the traditional dried brown seeds. This extends the seasons of beauty you can enjoy through summer and fall.
- **Exposure/Soil:** Part sun to sun, but part sun better in the hot South.
- **Growth:** Quickly reaches 4-5 ft. tall, spreading 4-5 ft. wide.
- **Hardiness:** Zone 3-9; Shrub
- **Foliage:** Deciduous. The glossy, green foliage displays an excellent red fall color and is fragrant when brushed against or leaves are crushed that also deters deer, rabbit, and other animal browsing. While the leaves may resemble that of poison ivy, it is entirely non-toxic.
- **Flower:** White plumes in summer, followed by red seed pods in fall that persist through winter. Great food for birds!
