

Double Play® Dolly® Spirea

Spiraea x 'SMNSJSA' PP35032

- **Use:** *Embrace a bold aesthetic with Double Play Dolly® spirea!*
The big color arrives early in spring as the new foliage fills in, lighting the small shrub up with blazing orange-red color. Foliage matures to a dazzling chartreuse color and in late spring, equally dazzling electric purple blooms arrive to make a truly eye-popping color combo. Its compact size fits nicely at the front of the border as edging or low hedging.
- **Exposure/Soil:** Full– part sun. Water regularly, when top 3 in. of soil is dry. Drought tolerant once established
- **Growth:** Fast growing to 18-30” tall and wide. It naturally takes on a nice, rounded habit without pruning. If you wish, you can give it a trim after the flowers fade, which will encourage even more colorful new growth.
- **Hardiness:** Zone 4 –8; Shrub
- **Foliage:** Deciduous. In the spring as the foliage emerges, it starts off shades of orangeish red before changing to bright yellow.
- **Flower:** Electric purple flowers compliment chartreuse foliage in spring.

Why grow Double Play Dolly® spirea?

- Unique color combo
- Useful small habit
- Super easy maintenance
