

# Rainbow Fizz Spirea

## *Spiraea japonica* 'Rainbow Fizz'

- **Use:** Bring a burst of color to your landscape with Rainbow Fizz™ Spirea. The pop and fizzle of color combinations throughout the season is both surprising and fun! Rainbow Fizz is compact and easy to grow, so plant it in a mixed border, along a walkway or in a patio pot, then water, and relax. **Exposure/Soil:** Full– part sun. Water regularly, when top 3 in. of soil is dry. Drought tolerant once established
- **Growth:** Fast growing to 3-4' tall and wide. It naturally takes on a nice, rounded habit without pruning. If you wish, you can give it a trim after the flowers fade, which will encourage even more colorful new growth.
- **Hardiness:** Zone 3–8; Shrub
- **Foliage:** Deciduous. The dynamic color show begins as new foliage emerges bronzy red, changes to golden sunshine for summer then reverts back to bronzy red for fall.
- **Flower:** Candy-like flower buds emerge red, opening to pretty pink blooms from spring to frost if you cut back old flowers.

Sized beautifully for smaller gardens and spots at the front of the border, these rugged, carefree shrubs are a great choice for edging a border or adding seasonal color to foundation plantings.
