

Bridal Wreath Spiraea

Beautiful harbinger of spring and easy to grow!

Spiraea prunifolia

- **Use:** An early bloomer with fragrant, white blooms emerging before the foliage on dense, arching stems. Narrow, soft sea green foliage remains dense to the base of the plant. Excellent naturalized hedge. Deer resistant. Super tough!
- **Exposure/Soil:** Full– part sun. Water regularly, when top 3 in. of soil is dry. Drought tolerant once established
- **Growth:** Fast growing to 8 ft. tall, 8ft. wide. Prune yearly to maintain fullness and shape.
- **Hardiness:** 4 -9 Shrub
- **Foliage:** Deciduous. Tiny green leaves.
- **Flower:** Delicate, airy white flowers in early spring.
