

# Sting® Arborvitae

## *Thuja occidentalis* 'SMNTOO' PP34292

- **Use:** We love plants with interesting architecture, and this selection of our native Eastern arborvitae (*Thuja occidentalis*) takes skinny to the max with its sword-like silhouette. Use it to make an exclamation point in garden designs, or fit it into a very narrow bed. Certain to be iconic plant in well-designed landscapes everywhere, from the Shire to Shreveport.
- **Exposure/Soil:** Full to part sun(6+ hours). Water regularly-weekly, or more often in extreme heat. Needs less frequent watering, once established.
- **Growth:** quickly reaches 15-20 ft. tall and 12-18" wide.
- **Hardiness:** Zone 3a-8b; Shrub
- **Foliage:** Evergreen. Holds its dark green foliage color throughout winter. Hardy, resists winter burn.
- **Flower:** Not known for flowers..

The tight, columnar habit makes this a great specimen or screen for narrow sites. Use as a bold accent plant in mixed borders.
