

Woodward Globe Arborvitae

**Perfect for
the
background in
your
flowerbeds or
at the
corner of your
home.**

Thuja occidentalis 'Woodwardii'

- **Use:** Dark green foliage. Retains globular shape without pruning. Tolerant of drought and low humidity. Adaptable evergreen for foundation planting, hedge or border.
- **Exposure/Soil:** Full (but will need some protection from hottest afternoon sun) to part sun. During the winter they prefer well-drained soils. Water regularly, when top 3 in. of soil is dry. Once established needs only occasional water.
- **Growth:** Slowly reaches 3-5 ft. tall and 3-5' wide.
- **Hardiness:** **Zone 3-7**; Shrub (This shrub needs protection from summer heat in our area / **Loganville is Zone 8.**)
- **Foliage:** Evergreen. Small lacy fan-like leaves (actually flat needles) are a rich deep green that makes it a fine stand-in for boxwoods and hollies.
- **Flower:** Not known for flowers..
