 - **Attracts pollinators**
 - **Tolerates clay soil**
 - **Disease resistant**

Viburnum xburkwoodii 'Mohawk'

- **Use:** Provides season after season of color, beginning with showy red flower buds in spring. Buds open into spheres of fragrant white to pink blossoms. The spicy clove-like perfume delights gardeners and butterflies alike. Flowers are followed by red fruits that mature to black. Glossy, dark-green foliage turns orange to burgundy red in autumn.
- **Exposure/Soil:** Full to part sun(best) to shade. Water regularly, when top 3 in. of soil is dry. Tolerant of all soils and positions as long as it is not too dry.
- **Growth:** Quickly growing to 8-10' tall and 8-10' wide.
- **Hardiness:** Zone 5-8; Shrub
- **Foliage:** Evergreen. Dark green leaves turn maroon in fall, but remain evergreen.
- **Flower:** Noted for its deep red flower buds. They open to intensely fragrant white flowers. Flowers followed by dark red fruit beloved by wildlife.
