

Shasta Viburnum

Treat your garden to an evergreen shrub that offers spring variegation, fragrant flowers, and masses of berries beloved of birds and other wildlife! Build a natural habitat around 'Shasta' Viburnum!

Viburnum plicatum tomentosum 'Shasta'

- **Use**: After staging a blizzard of outsized snowy blossoms in mid spring along elegantly layered horizontal branches, 'Shasta' comes back with a double encore.
- **Exposure/Soil**: Full to part sun. Requires well-drained soil and good moisture. Needs extra water during a drought.
- **Growth**: Grows 6-8 feet tall and 8-10 feet wide
- **Hardiness**: Zone 5-8; Shrub
- **Foliage**: Deciduous. The maple like leaves turn purple and red in the fall providing your with some incredible autumn foliage.
- **Flower**: In late spring fragrant white blooms (that butterflies love) open up in lovely rounded lacecap like clusters. They give away to abundant bright red fruits in mid summer that provide a picnic for birds.
