

Sonic Bloom® Punch Reblooming Weigela

Weigela florida 'SMNW9RB' PP35915

- **Use:** If you're a multitasker, you're going to love a Sonic Bloom® Punch weigela. This little plant manages to do quite a lot all at once. Its blooms are a rich punch-pink color and absolutely cover the foliage in the springtime. It takes a brief rest in early summer and reblooms through late summer and into fall. When blooms aren't obscuring its foliage, you'll see it has a pretty bronze tint. Dress up the middle of your border with this prolific bloomer! Pest and disease resistant. Requires only a minimum of care to yield years of beauty. Superb as a solo specimen, or plant three or more together to create a colorful hedge. Versatile plant excellent for foreground of shrub beds or as background for flower borders.
- **Exposure/Soil:** Prefers well-drained soils but fairly adaptable to other soil types. If necessary, prune immediately after the spring bloom. Best flowering occurs in full sun, but light shade isn't harmful, particularly in warmer climates.
- **Growth:** Moderate grower to 2.5-4' tall and 4' wide. Blooms on new and old wood.
- **Hardiness:** Zone 4a-8b; Shrub
- **Foliage:** Deciduous. Foliage has a handsome bronze color that provides excellent contrast.
- **Flowers:** Incredible vibrant punch-pink color of its blooms, which smother the plant in spring, obscuring the foliage, and come back repeatedly through summer and fall to extend the show. No deadheading is needed to see strong reblooming through summer and fall. Loved by butterflies & hummingbirds, and gardeners alike!
