

Sonic Bloom Red Weigelia

Wiegela 'Sonic Bloom Red'

- **Use:** Bird lovers, this flowering shrub is for you! Gracefully arching shrub boasts densely clustered, 1" funnel-shaped red blooms which are especially attractive to hummingbirds. Pest and disease resistant. Requires only a minimum of care to yield years of beauty. Superb as a solo specimen, or plant three or more together to create a colorful hedge. Versatile plant excellent for foreground of shrub beds or as background for flower borders.
- **Exposure/Soil:** Prefers well-drained soils but fairly adaptable to other soil types. If necessary, prune immediately after the spring bloom. Best flowering occurs in full sun, but light shade isn't harmful, particularly in warmer climates.
- **Growth:** Moderate grower to 4-5 ft. tall and 5-6' wide. Blooms on new and old wood.
- **Hardiness:** Zone 4-8; Shrub
- **Foliage:** Deciduous. Oblong, 4.5-inch green leaves provide a lush appearance.
- **Flowers:** The lipstick red flowers in spring are remarkable enough to make this a choice selection, but a burst of flowers in May followed by waves of rebloom until frost make it a must-have shrub. Deadheading is not needed to keep the plant blooming. Repeat flowers until frost. Attracts hummingbirds.
