

Dr Seuss Dwarf Variegated Jap. Maple

A nice smaller addition to any dwarf collection very pretty with nice color. A nice fit for any small garden with a great name... it will become your own personal cat in a hat.

Acer palmatum 'Dr Seuss'

- **Use:** Dr. Seuss Japanese maple is a dwarf maple with curled, scrunched, or slightly flattened foliage. This gives the tree a truly unique look. Spring growth is yellow variegation on green leaves. Fall color is a mix of orange and yellow. Japanese maples are highly desirable for their stunning year-round color, compact size, and versatile, sculptural forms that fit well in small gardens or containers.
- **Exposure/Soil:** Prefers full sun to part sun. Morning sun with protection from hot sun is best in the South. Water regularly, when top 3 in. of soil is dry. Will not tolerate soggy or extremely dry soil.
- **Growth:** Slow growth rate of 5' tall and 3' wide.
- **Hardiness:** Zone 6-10, Medium sized tree
- **Foliage:** Deciduous. Features small, irregularly shaped leaves. Green foliage has slight yellow variegation that is most prominent on new growth. In the fall the leaves transition from yellow to orange.
- **Flower:** Distinctive double-winged, papery samaras (seed pods), often in bright red, which emerge in spring before leaves and mature for wind dispersal.
