

Electra Blue Deodar Cedar

Great focal point and specimen in parks and small gardens.
Give this tree a prominent place to shine in your garden.

Cedrus deodora 'Electra Blue'

- **Use:** This collector's item is a slow growing compact selection ideal for landscapes where a smaller sized blue conifer is desired. With attractive powdery blue needles, the dense pyramidal shape can be sheared if desired.
- **Exposure/Soil:** Full to part sun. Follow a regular watering schedule during the first growing season to establish a deep, extensive root system. Watering can be reduced after establishment. Feed with a general purpose fertilizer before new growth begins in spring. Pruning time: winter.
- **Growth:** Grows 8 feet tall and 5 feet wide in 10 years.
- **Hardiness:** Zone 6a-9b; Tree
- **Foliage:** Evergreen. The short needles are an intense glittering-blue color, making it a great contrast plant to other colors like gold or red.
- **Flower:** 3 to 4" bluish green cones on female trees.
