

# Coral Magic Crape Myrtle

Heat  
loving small tree or  
large shrub with lots  
of color!

## *Lagerstroemia indica* 'Coral Magic'

- **Use:** This semi dwarf, mid sized Crape Myrtle is a newly developed variety from Plant Introductions, Inc with large clusters of salmon pink flowers.
- **Exposure/Soil:** Full/part sun; well-draining soil and appreciates slow release fertilizer. Water regularly. They tolerate clay and alkaline soil well. Prefers not to have water on the leaves.
- **Growth:** Grows 6-10' tall. Shape into a tree by cutting out weak shoots. This variety can be maintained at a slightly shorter mature height through regular trimming / pruning, or allowed to reach its full mature size if desired. Handout available on our website.
- **Hardiness:** Zone 6-9; Multi-stemmed large shrub for border or small tree.
- **Foliage:** Deciduous. Reddish new growth, becoming dark green in summer.
- **Flowers:** Salmon-pink blossoms throughout the summer and into late October. Flowers on new growth; prune in late winter
