

A Pristine Spire™ Japanese Snowbell Tree

**We love the
unusual, fra-
grant blos-
soms on this
hard to
find
tree!**

***Styrax japonicus* 'SJMTF' PP31851P#**

- **Use:** Slender, upright, columnar growth habit with a dominant central leader, dark green smaller leaves, and heavy spring/summer bell-shaped white blooms. Lovely, slightly fragrant, white, bell-shaped flowers drip from strongly horizontal side branches with dark green foliage in early summer. A splendid small tree for use adjacent to a patio or near a pathway. From breeder Dwayne Moon of Madison, GA. Year round interest.
- **Exposure/Soil:** Full sun /partial shade, Prefers well-draining soil and appreciates slow release fertilizer. Water when top 3 in of soil is dry.
- **Growth:** Grows to 15–20 feet tall and 6–8 feet wide. Narrow, upright, and columnar, making it ideal for small-space gardens, tight side yards, or accent plantings.
- **Hardiness:** Zone 5-8; Small Tree
- **Foliage:** Deciduous. Dark green foliage turns yellow to red in the fall.
- **Flowers:** Fragrant, nectar-rich, white, bell-shaped blossoms that cascade from the branches in late spring and early summer that attract pollinators and butterflies. Produces small ornamental olive-green fruits that attract birds in late summer-fall.
