

Fiesta Hibiscus Bush

Heat loving and they add a tropical look to the pool or deck.

Hibiscus 'Fiesta'

- **Use:** Loves heat and full sun! Attracts hummingbirds. Blooms nonstop all summer until frost. If you plant them in the ground be sure to plant them with the pot. They like to be pot bound and this way you can bring them into the garage to over-winter.
- **Exposure/Soil:** Full– part sun. Moist, well-drained soil, but not soggy. Use slow release fertilizer two times a year. Water regularly, when top 3 in. of soil is dry. Loves to be kept moist, but don't leave pot standing in water. Prefers to be root bound so if you plant in the ground be sure to plant them pot and all in the ground so you can easily bring it inside for the winter.
- **Growth:** Fast-growing to bushy to 4 feet in one season. Larger over time.
- **Hardiness:** 8-11; Annual, Must bring inside in the winter.
- **Foliage:** Long oval leaves. Evergreen if brought indoors in winter
- **Flower:** Large single blooms of bright orange petals with crinkled edges that quickly change to a blush red eye zone over a white background. Blooms April– October nonstop!

Did you know that we recycle empty pots and trays? Please bring them back! Save the Earth!
