

Hollywood Hibiscus

Hollywood Hibiscus give a lush tropical look to any landscape. Plant them into containers for the patio or by the pool so that you can bring them indoors for the colder winter months.

Hibiscus 'Hollywood Series'

- **Use:** Hollywood cast members deserve the spotlight and qualify for all Oscars and awards, along with stars on the Hollywood Walk of Fame. Not only do they deserve the awards, but they also earned them by being talented and glamorous. With this cast, you can count on a performance of a lifetime. These stars were created with intent and genetics to preform, regardless of conditions, however, they show off best in warm weather. Totally unique and produced to be all natural beauties, they are well known all around the world!
- **Exposure/Soil:** Full –Part (will not bloom as well) sun. Moist, well-drained soil, but not soggy. Use slow release fertilizer two times a year. Water regularly, when top 3 in. of soil is dry. Loves to be keep moist, but don't leave pot standing in water. Prefers to be root bound so if you plant in the ground be sure to plant them pot and all in the ground so you can easily bring it inside for the winter.
- **Growth:** Fast-growing to bushy to 4 feet in one season. Larger over time.
- **Hardiness:** Zone 9-11; Annual, Must bring inside in the winter and keep above 50 degrees.
- **Foliage:** Evergreen if indoors in winter. Dark green disease resistant foliage.
- **Flower:** A stunning group of tropical hibiscus that range in color from pure white to hot pink, steamy orange and fiery red. Prolific bloomers from spring to frost.
