

# Clematis Jackmanii

## *Clematis 'Jackmanii'*

- **Use:** "Queen of the climbers." Clematis are prized for their incredible flowers, most as large as your hand. Will train onto trellises, fences, or arch over doorways. Stunning when used alone or when several colors are mixed. An old favorite which was introduced in England in the mid-1800s. The classic Clematis beloved by gardeners for nearly 150 years, It blooms so heavily all summer that you should abandon all hope of viewing the foliage! One of the loveliest climbers of all time, it will remain a beloved favorite as long as gardeners treasure profuse, rich color!
- **Exposure/Soil:** Full sun–shade (not deep shade); Water regularly, when top 3" of soil is dry. Prefers to have its roots shaded and its flowers in the sun. Use slow release fertilizer twice a year. Once established needs only occasional water.
- **Growth:** Fast grower to 8 feet long, but still compact enough to be grown in a container. This variety blooms only on the current year's growth. Blooms commence in early summer and continue through to fall. Plants should be cut back in late February or March to two strong sets of buds on each stem as close to ground level as possible.
- **Hardiness:** 3-9; Perennial, Vine
- **Foliage:** Deciduous. Delicate green foliage grows quickly.
- **Flowers:** Profuse, 5-7", open, four-sepaled, violet-purple flowers cover this vine in mid to late summer.

**This classic variety, considered by many to be the truest (and most beautiful) Clematis of all!**
