

Mrs Yuki Clematis

A must have vine in the garden for beginner Gardeners.

Clematis 'Mrs Yuki'

- **Use:** For beautiful colors, extravagance of blooms, and graceful habit, nothing compares with Clematis, the queen of the flowering vines. Whether used on posts or fences, clambering through shrubs and trees, or following wire frames in borders, they will enrich the landscape.
- **Exposure/Soil:** Full sun–shade (not deep shade); Water regularly, when top 3” of soil is dry. Prefers to have its roots shaded and its flowers in the sun in the South.. Use slow release fertilizer twice a year. Once established needs only occasional water.
- **Growth:** Quickly reaches 4 to 6 ft. tall with support. Group 2 Pruning: Can bloom on old and new wood, and generally start flowering in late spring. These should be pruned lightly in late winter or early spring when you see buds begin to swell. Cut just above fat buds. This can be done higher or lower on the vine. All traditional large-flowered hybrids like 'Henryi' and 'Nelly Moser' are in this group.
- **Hardiness:** Zone 4-10; Perennial, Vine
- **Foliage:** Deciduous. Delicate green foliage grows quickly
- **Flowers:** This rare clematis has beautiful 5 inch wine red to purple flowers with bright yellow stamens to contrast in the center. This would look amazing grown with a yellow rose! Watanabe, Japan 1997. Spring to early summer; may repeat in early fall.
