

Olympia Clematis

Clematis 'Olympia' 'Evipo099'

- **Use:** AttFor beautiful colors, extravagance of blooms, and graceful habit, nothing compares with Clematis, the queen of the flowering vines. Whether used on posts or fences, clambering through shrubs and trees, or following wire frames in borders, they will enrich the landscape.
- **Exposure/Soil:** Full sun–shade (not deep shade); Water regularly, when top 3” of soil is dry. Prefers to have its roots shaded and its flowers in the sun in the South.. Use slow release fertilizer twice a year. Once established needs only occasional water.
- **Growth:** **Grows 7-8' tall.** Pruning group 3. It blooms on old and new wood, so prune as often or as fully as you like to promote reblooming.
- **Hardiness:** **Zone -9;** Perennial, Vine
- **Foliage:** Deciduous. Delicate green foliage grows quickly. Compact grower.
- **Flowers:** It has attractive, blue single (and sometimes semi-double) blooms, with overlapping sepals and yellow anthers. It flowers off the new and old wood. Very free and repeat flowering, producing flower buds from the leaf axils and end of stems. Ideal for growing in containers on the patio.

**A must
have vine
in the garden for be-
ginner
Gardeners.**
