

Tranquilite Clematis

Clematis 'Tranquilite'™ Evipo111(N)

- **Use:** An exceptional and attractive free flowering plant which is great for the smaller garden due to its compact habit. Tranquilite's subtle colours make it a superb plant for growing in a shaded area such as a north facing wall or in a container in a shaded outdoor eating area, patio or deck. For beautiful colors, extravagance of blooms, and graceful habit, nothing compares with Clematis, the queen of the flowering vines. Whether used on posts or fences, clambering through shrubs and trees, or following wire frames in borders, they will enrich the landscape.
- **Exposure/Soil:** Full sun–shade (not deep shade); Water regularly, when top 3" of soil is dry. Prefers to have its roots shaded and its flowers in the sun in the South.. Use slow release fertilizer twice a year. Once established needs only occasional water.
- **Growth:** Grows 4-5' tall and 2-3' wide. Pruning group 3. It blooms on old and new wood, so prune as often or as fully as you like to promote reblooming.
- **Hardiness: Zone** -9; Perennial, Vine
- **Foliage:** Deciduous. Delicate green foliage grows quickly. Compact grower.
- **Flowers:** The beautiful star-shaped flowers are mauvey-blue with a white bar, they have crimped and wavy margins and a lovely crown of reddy-chocolate anthers. Launched at Chelsea Flower Show 2018.

**A must have vine
in the garden for
beginner
Gardeners.**
