

Ville de Lyon Clematis

Clematis 'Ville de Lyon'

- **Use:** "Queen of the climbers." Clematis are prized for their incredible flowers, most as large as your hand. Will train onto trellises, fences, or arch over doorways. For beautiful colors, extravagance of blooms, and graceful habit, nothing compares with Clematis, the queen of the flowering vines. Whether used on posts or fences, clambering through shrubs and trees, or following wire frames in borders, they will enrich the landscape. Give them good soil, reasonable moisture, and shade at their roots.

Exposure/Soil: Full sun–shade (not deep shade); Water regularly, when top 3" of soil is dry. Prefers to have its roots shaded and its flowers in the sun. Use slow release fertilizer twice a year. Once established needs only occasional water.

- **Growth:** Fast grower to 8 feet long, but still compact enough to be grown in a container. It is a member of pruning group 3 (prune in late winter or early spring) , but you can treat as a Group 2 also.
- **Hardiness:** 3-9; Perennial, Vine
- **Foliage:** Deciduous. Delicate green foliage grows quickly.
- **Flowers:** This large-flowering, hybrid clematis features profuse, showy, 4-6" diameter, carmine red flowers with golden stamens. Bloom on this cultivar comes primarily from the current year's growth, and covers the vine for most of the summer.

**A must
have
vine in
the
garden
for
begin-
ner gar-
deners.**
