

Variegated Asiatic Jasmine Vine

Excellent used in containers!

Trachelospermum asiaticum 'Variegatum'

- **Use:** Glowing white and deep dark green glossy foliage on this tough groundcover will brighten any shaded garden area. Evergreen, drought tolerant, and disease and pest free. Asiatic Jasmine is a tough, reliable, and dense evergreen groundcover that is tolerant of a wide variety of soils and light conditions. This is an excellent choice for difficult sites and is quite drought tolerant once established.
- **Exposure/Soil:** Full sun to partial shade, some shade is appreciated in hottest areas. Grows in most soils, but amend red clay. Drought tolerant!
- **Growth:** Grows continues to grow at a moderate pace 6' wide. May spend the first year or two getting established before it begins to really fill in. so if using as groundcover be sure to mulch area to keep out weeds.
- **Hardiness:** Zone 7-10; Perennial
- **Foliage:** Evergreen. Sage green, heavily veined leaves that are splashed and edged in cream. New growth emerges with pink tints.
- **Flower:** Though shy to flower as a ground cover, climbing or container plants produce sweetly scented, creamy yellow flowers in late spring.
