

# American Wisteria Amethyst Falls

Fragrant cinnamon scent!

## ***Wisteria 'Amethyst Falls'***

- **Use:** Exciting variety of ever-blooming American native wisteria. Twining plants grow at about a third the rate of Asian wisteria for better behavior in small spaces. Flowers heavily in April and May, then continues blooming on new growth sporadically throughout the summer. Great in containers for porch or patio. Espalier onto trellis, arbor and over gateways. Perfect to run across the top of wall or fence without engulfing it
- **Exposure:** . Vigorous, super adapted and disease resistant. Deciduous vine. Sun or part shade.
- **Growth:** Fast growth to 8 to 10 feet wide.
- **Hardiness:** 6-9; Vine
- **Foliage:** May be pruned back heavily in winter as it flowers on new growth. Deciduous.
- **Flower:** Blooms at an early age in slightly fragrant intense blue racemes 4 to 6 inches long.
